

RECOMMENDED BOOKS

BT-401: Computational Biology II

- Essential Bioinformatics by Jin Xiong
- Bioinformatics by Andreas Baxevanis & Francis Ouellete
- Bioinformatics Sequence & Genome Analysis by David W Mount

BT-402: Bioprocess Technology

- Principles of Fermentation Technology by Stabury, Whitaker, Hall
- Biotechnology by Krueger & Krueger
- Bioprocess Engineering by Shuler & Kargi

BT-403: Downstream Processing

- Principles of Fermentation Technolgy by Stanbury, Whitaker, Hall
- Principles & Techniques of Biochemistry by Wilson & Walker

BT-404: Elective I

Depending upon the Course.

BT-405: Management,Accounting & Cost Control

- Financial Management by Prasanna Chandra
